

Note di Matematica

Volume 35, number 1, 2015

E. BALLICO: <i>Postulation of general unions of lines and decorated lines</i>	1
M. B. HALIMA, A. RAHALI: <i>Separation of unitary representations of certain Cartan motion groups</i>	15
E. BALLICO: <i>Postulation of general unions of lines and multiplicity two points in \mathbb{P}^r, $r \leq 5$</i>	23
H. ARORA, R. KARAN: <i>Groups as the union of fusion classes</i>	57
G. METAFUNE, M. SOBAJIMA, C. SPINA: <i>Spectral properties of operators obtained by localization methods</i>	67
N. N. T. LAN: <i>On a initial-value problem for second order partial differential equations with self-reference</i>	75
M. A. ABDELLAOUI, Z. DAHMANI: <i>Solvability for a coupled system of nonlinear fractional integro-differential equations</i>	95
V. NAPOLITANO: <i>On sets of the $(m, h)_2$ in $PG(3, q)$ with $m \leq q$</i>	109
A. AVVANTAGGIATI, E. PASCALI: <i>Generalized Lie's Series</i>	125
